

Plastic Technology, Inc.

2006

To whom it may concern:

Insulating tapes can be used for butt joints on the pipe insulation manufactured by Plastics Technology Inc (INNOFOAM Insulation). Also, 3 mils (0.003”) of high-density polyethylene tape with an adhesive backing can be used for butt joints in non-critical applications such as hot/cold water piping. The use of tape is NOT recommended where condensation control is considered.

If you have any questions, please feel free to contact me @ 800-331-5435, X 4659.

Best regards,

Debabrata Kundu, P.E
